SUMMARY

Senior Creative Developer & AI Architect with 6+ years of experience building high-performance websites and digital ecosystems. Expert in Next.js, React.js, TypeScript, and modern animation libraries (GSAP, Framer Motion), with strong command of WordPress, Shopify, Webflow, and GoHighLevel (GHL) development. Skilled in custom theme/widget development, CMS/CRM architecture, and AI-driven workflow automation (n8n, Zapier). Helped e-commerce and small-to-mid enterprises reduce page load time, improve SEO rankings, and increase conversion rates. Delivered 100+ projects for international clients.

WORK EXPERIENCE

Website Developer + AI Architect - Avancera Solution - (Full-Time)

Dec 2025 - 2026

- Engineered high-performance, SEO-optimized web applications using Next.js, React.js, and TypeScript, combining scalable development with pixel-perfect design execution.
- Acted as AI Architect, designing and deploying custom automation workflows (n8n/Zapier/GHL) to streamline business processes and improve operational efficiency.
- Delivered immersive, interactive user experiences using GSAP and Framer Motion, eliminating the need for external UI/UX support through an in-house design-to-development workflow.
- Applied prompt engineering and generative AI tools to produce consistent, brand-aligned visual assets for client digital products.
- Managed end-to-end CMS/CRM architecture across GoHighLevel, WordPress, and Shopify, ensuring seamless integration between design, automation, and code.

Website Developer - WeCreative - (Full-Time)

Nov 2023 - 2025

- Design Figma prototypes & build custom WordPress websites using Elementor, Bricks, & WPBakery builders.
- Advanced to leading end-to-end builds, from Figma prototypes to custom WordPress/Shopify solutions, collaborating with designers and clients.
- Launched 43+ WordPress/Shopify sites; average client satisfaction 4.8/5; reduced dev cycles by 20%.

Front-End Developer - Apps Alberta - (Full-Time)

Jul 2019 - Nov 2021

- Built 20+ WordPress websites; Improved page load speed by 90%, reducing bounce rates by 25%.
- Implemented custom themes, plugins, and integrations to enhance website functionality.
- Focused on front-end development; later expanded into full-stack tasks including backend optimization and plugin customization.

Growth Modo — Web Developer (Part-Time)

May 2022 – Sep 2023

- Converted Figma designs into fully functional WordPress and Shopify websites, delivering 38+ projects and achieving an 87% improvement in mobile conversion on a client redesign.
- Customized themes and templates across client projects to ensure design precision and functionality.
- Collaborated with the design and project team to manage builds from concept to launch.

EDUCATION

Bachelor of Computer Science (BCS), University of Sindh

May 2024 - Present

- University of Sindh · Mirpur Khas (Weekend Online, Sat–Sun)

Web Development Course, Udemy

Jan 2018 - Oct 2018

- Completed course on web development, enhancing skills in HTML, CSS, JavaScript, WordPress, & Shopify.

KEY ACHIEVEMENTS

- Delivered 100+ web and automation projects for international clients across WordPress, Shopify, Webflow, and GoHighLevel.
- Built and launched 200+ WordPress websites and 20+ Shopify stores with custom theme and app integrations.
- Improved organic traffic by 45% and reduced page load times through performance-focused development.
- Designed and deployed AI-driven automation workflows (n8n, Zapier, GHL), streamlining client business processes.
- Increased mobile conversion rates by up to 87% through Design-to-Development builds using GSAP and Framer Motion.
